PROFILE

Enthusiastic and dedicated Python Django Developer with a strong foundation in web development. Eager to learn and contribute to innovative projects. Passion for maintainable code and commitment to continuous growth, I'm excited to kick-start my career in software development. I thrive in collaborative environments and am ready to take on new challenges.

PERSONAL PROJECT

- **Cretal (E-commerce Website)** 08/2024 – Present
GitHub Link
 - **Description** Cretal is an e-commerce platform tailored for sports gear enthusiasts. It delivers a seamless and secure online shopping experience. The platform supports essential e-commerce functionalities, including product listing, cart management, order processing, wish lists, and CRUD operations (Create, Read, Update, Delete).
 - **Frontend** Designed and created a responsive and intuitive frontend using HTML, CSS, Bootstrap, and JavaScript.
 - **Backend** Developed using Python Django framework, following MVT architecture and ORM queries. Utilized PostgreSQL for efficient and reliable database management.
 - **Technologies Used** Django Framework, Django ORM, PostgreSQL, HTML, CSS, Bootstrap, JavaScript.

MINI PROJECTS

- **JMP Hospitals Kochin (Hospital Management Project)** 07/2024 – 09/2024
GitHub Link
 - **Description** A web application using Python, Django, Bootstrap, and CSS. This project features user authentication and CRUD operations (Create, Read, Update, Delete) for patient and doctor management. The project aims to simplify hospital operations and improve patient care through a user-friendly and secure interface.
 - **User Authentication** Implemented secure user authentication to manage access and permissions for different user roles.
 - **CRUD Operations** Developed comprehensive CRUD functionalities for patient and doctor management, enhancing administrative efficiency.
 - **Technologies Used** Python, Django, Bootstrap, CSS.

TO-DO App

- 12/2023 12/2023
GitHub Link
- **Description** This To-Do app is built using Python Django and incorporates CRUD operations, Bootstrap styling and Django built-in user authentication. Users can sign up, log in, and manage their tasks with ease. The app allows users to create, read, update, and delete to-do items. It features a responsive interface styled with Bootstrap, ensuring a seamless user experience on both desktop and mobile devices. User authentication is handled using Django's built-in system, providing secure access to each user's to-do list. This app is perfect for users looking to organize their tasks efficiently.
 - **Technologies Used** Python, Django, Bootstrap, HTML, CSS.

WORK EXPERIENCE

- **Trainee** Kochi, India
